Guaranteed Additions: How calculated?

- ★ The Guaranteed Additions for an in force Policy in a Policy Year is arrived at by multiplying the **Applicable Rate of Guaranteed Additions and the Total Tabular Annual Premiums in respect of Premiums Paid.**

- ★ For the First Year, the Guaranteed Additions would be calculated on the Total Tabular Annual Premium **in respect of Premiums paid for the First Year.**

- ★ For the Second Year, the Guaranteed Additions would be calculated on the Total Tabular Annual Premium **in respect of Total Premiums paid for two Years so far.**

- ★ For the Third Year, the Guaranteed Additions would be calculated on the Total Tabular Annual Premium in respect of Total Premiums paid for three Years. **And so on.....**

Calculation of Guaranteed Additions: Example

Age: 30;
Sum Assured: 10 lacs;
Premium Paying Term: 15 Years;
Mode: Yearly
Existing Policyholder

Basic Guaranteed Additions Rate: 7%
Incentive for Higher Sum Assured: 0.4%
Incentive for Existing Policyholder: 0.1%
.....
Applicable Rate of Guaranteed Additions: 7.5%

Please Note that the Tabular Premium differs as per the SB option chosen.

Hence the amount of Guaranteed Additions differ,
for same Sum Assured, based on the SB option.

Guaranteed Additions: Some Points to Note

On Death of the Life Assured, in respect of an inforce Policy, the Guaranteed Additions in the Year of Death **will be paid for full Policy Year.**

In case of a **fully Paid Up Policy**, the Guaranteed Additions shall continue to accrue at the end of each Policy Year, **as applicable for an inforce Policy.**

In case of **Paid up Policy** also, the Guaranteed Additions shall continue to accrue for the remaining Policy Term, **at a proportionate rate.**

Bonus & Guaranteed Additions

- Bonus is calculated on the Sum Assured, whereas under Bima Lakshmi, Guaranteed Additions are calculated on the total Premiums Paid upto the year.
- Bonus remains constant, if there is no change in bonus rates; Whereas the GA increases every year, as and when the premiums are paid.
- Bonus rates are variable and dependent on the results of the valuation every year, whereas GA are pre-fixed and guaranteed.

Bonus & Guaranteed Additions

- There is no bonus for the remaining period, if the Policy once becomes paid up; But under **Lakshmi**, proportionate GA is payable in future years, even if the policy becomes paid up.

- In respect of a normal Money Back Policy, future SBs are not payable, if the Policy gets lapsed and in paid up condition; But under Lakshmi, proportionate SB is payable till maturity, even if the policy is under Paid up Condition.

Why Policy to Children segment?

- If we make them LIC Policyholders in their childhood itself, they will stay with LIC in their Adulthood also. Whenever they have to go for life insurance on their life or family members, their first choice would be LIC only.

- By focusing on Children segment today, we assure **not only current business, but also future business**.
