Total registered investors in India – 14.7 Cr.

STATE-WISE STOCK MARKET INVESTORS IN INDIA

Why ULIP?

- If someone wants to make **a single deposit for 5 to 9 Years**, what are the products do we have?

- If someone wants to pay premium for **only 5 to 9 years**, what are the products do we have?

Why ULIP?

If we ignore ULIP, we may loose other markets also.

- When we do not offer one particular type of product, public have no other option to approach Private Insurers. This will end in **loss of our Conventional business** also to Private Insurers.

- **Private Insurance Agents are very aggressive** and they first enter a family with ULIP, and then slowly enter into other segments such as Pension, Child market, Term Assurance etc.

- By missing ULIP today, tomorrow agents **may miss their existing clients** also.

ADVANTAGE ULIP

Family Protected

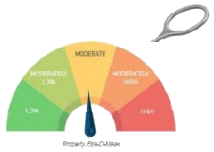

Get higher of Sum Assured or Fund Value on death

Optimize Returns

Long Term returns are potentially Better than other life insurance plans

Invest as per Risk Appetite

Four Different Funds to choose from depending upon your profile and risk Appetite

ADVANTAGE ULIP

Manage your Investments

Four Free Switches &

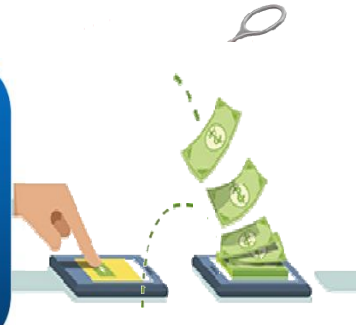

Unlimited Switches allowed

Dual Tax Advantage

Sec 80C: Rs.1.5 lac on Premium Paid 10 (10D): Maturity/Death Benefit tax exempted

Financial Flexibility

Option to take partial withdrawal, after initial lock-in period of 5 years is over

LIC's ULIP: The Advantage

- ✔ No need for Knowledge about Share Market Fundamentals
- ✔ Everyone can get the benefits of Share Market
- ✔ Gain from the Expertise of LIC in the Market.
- ✔ No need to have a DEMAT Account to join LIC's ULIP plans

Our Investment Philosophy

- ✔ 80% investment in Nifty 100 companies
- ✔ Top 10 stocks should be in Nifty 100
- ✔ Less than 10% in Single stock.
- ✔ 75% of debt securities should be AAA rated bonds.
- ✔ Most of our investments are in G Sec and State Developmental Loans which enjoy sovereign guarantee

Our Investment Philosophy

- ✔ Less than 15% only, in mutual funds
- ✔ Concurrent audit conducted every day.

  Only after audit is over we can declare NAV
- ✔ Growth fund current pattern as at 30.04.21 :

  62.11% in Equity, 32.09 % in Debt & 5.80% in Money Market .

ULIPs: New Vs Old;
Improvements in New ULIPs

1. Low allocation charges, compared to earlier ULIPs

2. No Policy Administration Charges in Nivesh Plus & SIIP for Full Term;
   No Policy Administration Charges for First 5 Years in Index Plus and Protection Plus

3. Lower Fund Management Charges

Improvements in New ULIPs

4. Refund of Mortality charges at the time of maturity in respect of SIIP, Index Plus and Protection Plus

5. Guaranteed additions at the end of **6th, 10th,15th, 20th & 25th Years** under both Nivesh Plus, SIIP and Index Plus

6. More important: Lock in Period 5 Years (Earlier it was 3 Years)

Improvements in New ULIPs

7. Concept of Discontinued Fund, with minimum assured yield of 4% p.a.

8. Customer Centric IRDA Regulations, which includes Limits on Maximum **Reduction in Yield (RIY)**

Customer Centric IRDA Regulations

- Customized Benefit Illustration
- Capping of charges by the Regulator to improve overall level of return on ULIP product
- Annual Unit Statements
- Provision to Policyholder for viewing the policy wise value of units held by him/her through login on Portal as per Form D02 (Statement of Product Value)

Customer Centric IRDA Regulations

- Intense regulatory reporting and disclosure requirements
- NAV Disclosure on company's Website and link at Life Council
- Audit requirements before declaration of NAV

Customer Centric IRDA Regulations

- **Limits on Reduction in Yield (RIY)-from 5th policy year till maturity**

- As per regulations, charges should be levied in a manner that the **Reduction In Yield**—the difference between Gross Yield and Net Yield —is not more than the prescribed limits, which are based on the duration of the Policy.

Limits on Maximum Reduction in Yield

Ann. Prem. Paid	Max RIY	Ann. Prem. Paid	Max RIY
5 Years	4%	9 years	3.15%
6 Years	3.75%	10 years	3%
7 Years	3.5%	11 & 12 years	2.75%
8 Years	3.3%	13 & 14 years	2.5%
		15 and thereafter	2.25%

Composition of Bond Fund

Fund Type	Risk Profile	Government Securities / Debt Funds	Short-term Investments viz. Money Market Instruments	Investment in Listed Equities
Bond Fund	Low Risk	Not less than 60%	Not more than 40%	Nil

Composition of Secured Fund

Fund Type	Risk Profile	Government Securities / Debt Funds	Short-term Investments viz. Money Market Instruments	Investment in Listed Equities
Secured Fund	Lower to Medium Risk	Not less than 45% & Not more than 85%	Not more than 40%	Not less than 15% & Not more than 55%

Composition of Balanced Fund

Fund Type	Risk Profile	Government Securities / Debt Funds	Short-term Investments viz. Money Market Instruments	Investment in Listed Equities
Balanced Fund	Medium Risk	Not less than 30% & Not more than 70%	Not more than 40%	Not less than 30% & Not more than 70%

Composition of Growth Fund

Fund Type	Risk Profile	Government Securities / Debt Funds	Short-term Investments viz. Money Market Instruments	Investment in Listed Equities
Growth Fund	High Risk	Not less than 20% & Not more than 60%	Not more than 40%	Not less than 40% & Not more than 80%

Composition of Flexi Growth Fund

Fund Type	Risk Profile	Objective	Government Securities / Debt Funds	Short-term Investments viz. Money Market Instruments	Investment in Listed Equities
Flexi Growth Fund	**Very High Risk**	To Provide Long Term Capital Appreciation (invest in stocks which are part of **NSE NIFTY 100 Index).**	**0 to 20%**	**0 to 40%**	**40% to 100%**

Composition of Flexi Smart Growth Fund

Fund Type	Risk Profile	Objective	Government Securities / Debt Funds	Short-term Investments viz. Money Market Instruments	Investment in Listed Equities
Flexi SMART Growth Fund	**Very High Risk**	To Provide Long Term Capital Appreciation (invest in stocks which are part of **NSE NIFTY 50 Index).**	**0 to 20%**	**0 to 40%**	**40% to 100%**

Composition of Discontinued Policy Fund

Fund Type	Government Securities / Debt Funds	Short-term Investments viz. Money Market Instruments
Discontinued Policy Fund	60 to 100%	0 to 40%

CHARGES Play Vital Role

Premium Allocation Charges Under Money Plus (180)

3. CHARGES AND FREQUENCY OF CHARGES:

i. Premium Allocation Charge: This is the percentage of the premium appropriated towards charges from the premium received. The balance known as allocation rate constitutes that part of the premium which is utilized to purchase (Investment) units for the policy.

The allocation charges are as below:

Single premiu:

Premium Band	Allocation Charge
Up to 4,00,000	4.25%
4,00,001 to 6,00,000	4.00%
6,00,001 and above	3.75%

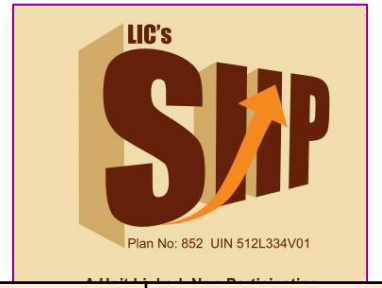

Regular premium:

Premium Band (per annum)	Allocation charge		
	First year	2nd & 3rd year	thereafter
5,000 to 75,000	26.50%	5.00%	2.50%
75,001 to 1,50,000	25.50%	5.00%	2.50%
1,50,001 to 3,00,000	24.00%	5.00%	2.50%
3,00,001 and above	23.00%	5.00%	2.50%

Premium Allocation Charges under Nivesh Plus & SIIP

Rate
3.30%

Year	Rate
1st year	8.00%
2nd to 5th year	5.50%
Thereafter	3.00%

These charges are taken care by Guaranteed Additions at the end of 6, 10, 15, 20 & 25th Years

CHARGES Play Vital Role

Policy Administration Charges:
Money Plus Vs Nivesh Plus & SIIP

iv. Other Charges:

a) POLICY ADMINISTRATION CHARGE - The Policy Administration charge of Rs. 60/- per month during the first policy year and Rs. 20/- per month thereafter, throughout the term of the policy will be deducted by canceling appropriate number of units out of Policyholder's Fund Value.

Zero Policy Administration Charges

No Policy Administration Charges for first 5 Years in Index Plus and Protection Plus

CHARGES Play Vital Role

Mortality Charges

- To be levied **till Policyholder's Fund Value is less than Risk Cover** and the charges is for the Difference between the Fund Value and Risk cover
- Charge is based on the Age nearer birthday on the Policy Anniversary. (It is not LEVEL PREMIUM)
- Mortality charges are less when compared to that of earlier ULIPs
- **This charge is also refunded on maturity, under** SIIP, Index Plus and Protection Plus plans.

CHARGES Play Vital Role

Mortality Charges

- Mortality Charges p.a. for **Rs.1000 Sum At Risk** for **Nivesh Plus, SIIP & Index Plus:**

Age	25	35	45	50	60
Charges (Rs.)	1.26	1.62	3.48	5.99	15.07

- Mortality Charges p.a. for **Rs.1000 Sum At Risk** for **Protection Plus**:

Age	25	35	45	50	60
Charges (Rs.)	1.17	1.50	3.22	5.55	13.95

Guaranteed Additions

Guaranteed Additions are added to the Policy Fund, at Periodical intervals, for Nivesh Plus, SIIP and Index Plus which in turn increases the Returns from the Policy.

This also helps in compensating the other charges such as Premium Allocation Charges etc

Refund of Mortality Charges on Maturity

The **Entire Mortality charges are refunded in full**, on maturity in respect of **Nivesh Plus, SIIP and Index Plus.**

This increases the overall Returns from the Policy and also motivates the policyholder to remain in the scheme for the full Term.

Partial Withdrawal

- Available after 5 Years.
- Available in Nivesh Plus, SIIP, Index Plus and Protection Plus.
- Premiums should have been paid upto date on the date of Partial Withdrawal.
- The withdrawals can be in the form of number of units or amount.
- This is not a loan. Hence no question of repayment of the amount or payment of Interest arises.
- Just like withdrawing money from Bank SB Account, subject to the prescribed limits.
- *For policies on the life of minors, Partial Withdrawals allowed, only after attainment of Majority.*

Partial Withdrawal

- In case of Death, the **Basic Sum Assured will be reduced by the partial withdrawals during the next 2 years.**
- **After 2 Years, original Basic Sum Assured will be restored.**
- Mortality charges also will be levied accordingly, taking into account the above two points.

Concept of Discontinued Policy Fund

- If the customer does not pay the premiums **within days of grace**, the Fund in the Policy account will be transferred to Discontinued Policy Fund, after **deducting Discontinuation Charges**.

- ✔ If the policyholder applies **surrender within the lock-in period of 5 years,** there also the available Fund will be shifted to Discontinued Policy Fund, after deducting Discontinuation charges.

Concept of Discontinued Policy Fund

- ✔ The amount in the Discontinued Fund or the **Guaranteed Monetary Fund** will be paid to the Policyholder, at the end of the lock in period of 5 years or after the expiry of 3 Years from the FUP, **whichever is later.**

- ✔ There is a minimum guarantee of 4% for the amount transferred to the Discontinued Policy Fund.

- ✔ However, in case of death of the policyholder, the Fund Value will be settled to the nominee, **without waiting for the expiry of the lock in period.**

Concept of Discontinued Policy Fund

- ✔ For all policies shifted to Discontinued Fund, only Fund Management Charges will be deducted periodically.
- ✔ The Fund Management Charges Rate is 0.50% p.a. only.
- ✔ No other charges apply.
- ✔ The **investment Portfolio** of Discontinued Policy Fund would be:
  - Money Market instruments: 0 to 40%
  - Government Securities: 60% to 100%

Switching,
a tool for minimizing Risk

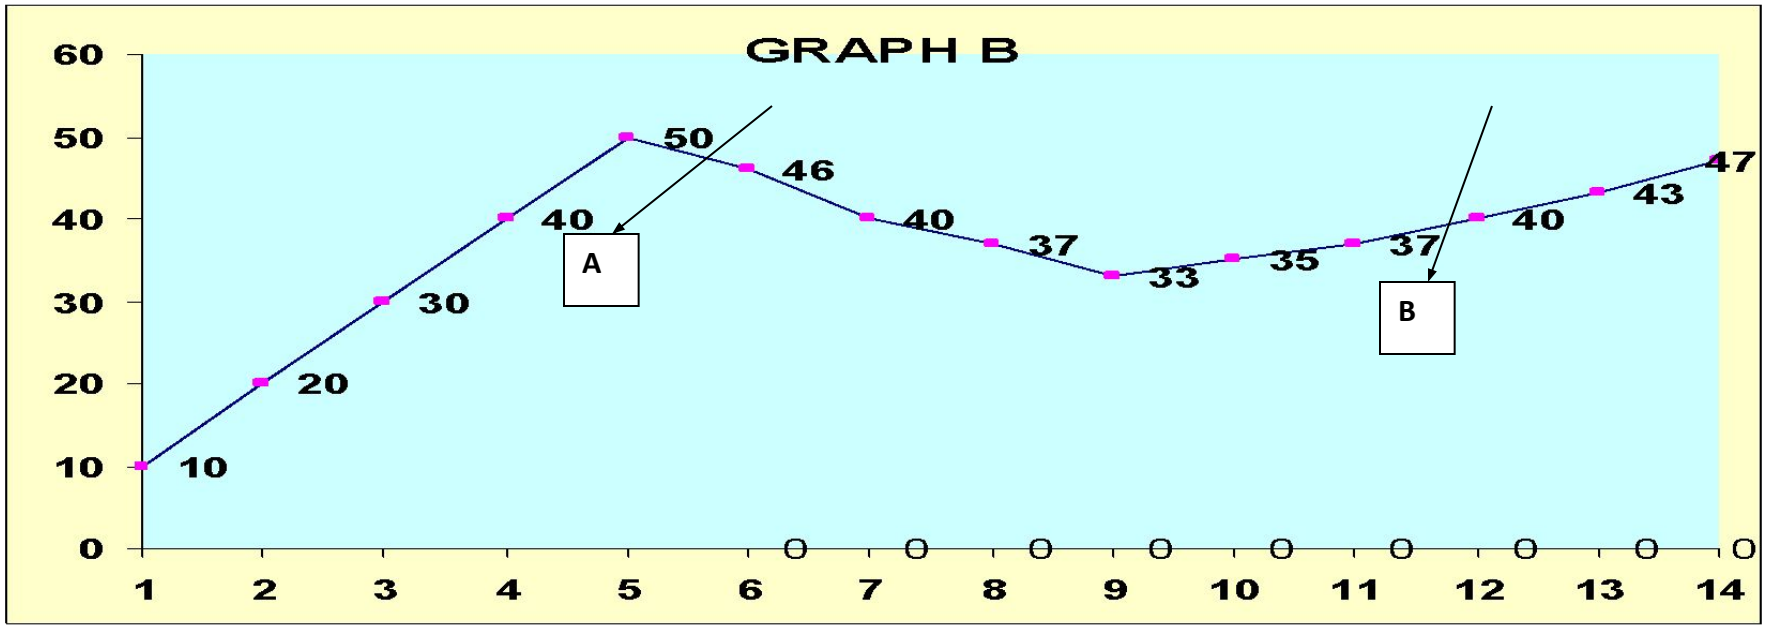

- ✔ The NAVs of Equity oriented funds will widely fluctuate. The NAVs of Debt Funds such as Bond Fund, Income Fund etc., will not fluctuate so widely.

- ✔ A prudent investor, when realizes that the index has started falling down, will **protect his Fund Value by switching** over from the Growth Fund to the Income / Debt Fund.

Switching,
a tool for minimizing Risk

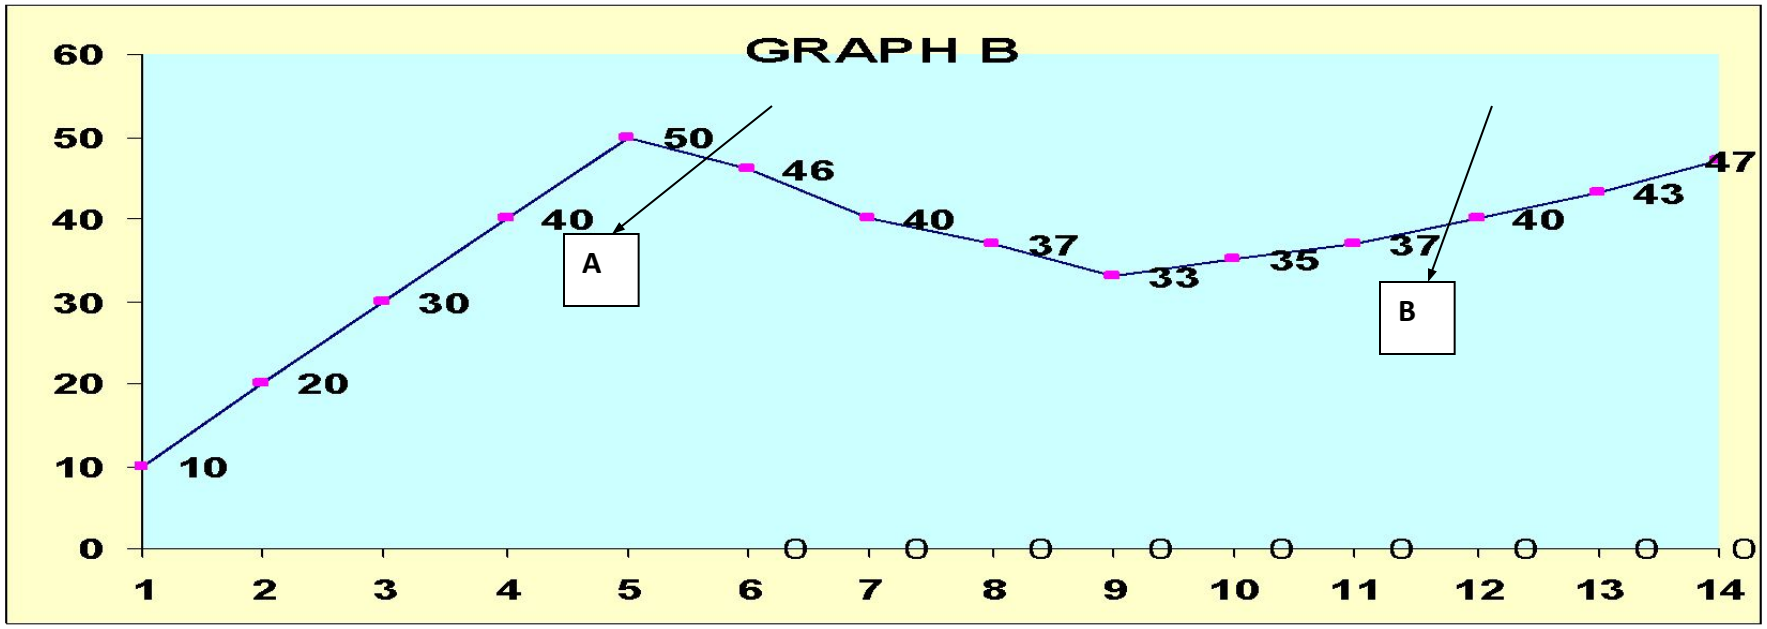

- ✔ Now that he has protected his fund from the further fall of index, he will **wait patiently** till the market improves and the NAVs start moving up steadily.

- ✔ When he is convinced that the market has started improving and that there will not be further fall in the Index, he will **again switch over** from Income / Bond Fund to the Equity / Growth Fund.

An investor was holding 10,000 units in the Growth Fund X. The NAV, after reaching the peak of Rs.50 started sliding down due to adverse market conditions.

Having realized that the bearish trend has started, he switches over to **Bond Fund** at Point A when the NAV of Growth Fund touched Rs.46 (this can be done anywhere between 46 and 40).

Assuming that the NAV of Bond Fund as Rs.20/-, he will get 41,818 units of Bond Fund as given below:

10,000 units x 46 =**4,60,000** (Fund Value)
4,60,000/20 = 23,000 units. (No of units in Bond Fund)

Switching,
a tool for minimizing Risk

- Let us assume that the bearish trend in the market continues for sometime and the market starts **picking up afterwards.**

- The NAV having touched the bottom most point of Rs.33/-, again starts picking up due to improved market conditions.

- Having realized the potential for growth in Growth Fund, he again **switches over from Bond Fund to Growth Fund** when the NAV of Growth Fund is Rs.37/-.

Illustration on Switching

Fund type	No of Units	NAV	Fund Value
Before Switching:			
Growth Fund	10,000	50.00	5,00,000
Switching at Growth Fund NAV @ Rs.46, to Bond Fund @ 11.00			
Growth Fund	**10,000**	**46.00**	**4,60,000**
Bond Fund	23000	20.00	4,60,000

Illustration on Switching

Fund type	No of Units	NAV	Fund Value
Switching Again to Growth Fund, when Market recovers (Growth Fund NAV 37.00; Bond Fund NAV 21.00)			
Bond Fund	23,000	21.00	4,83,000
Growth Fund	**13,054**	**37.00**	**4,83,000**

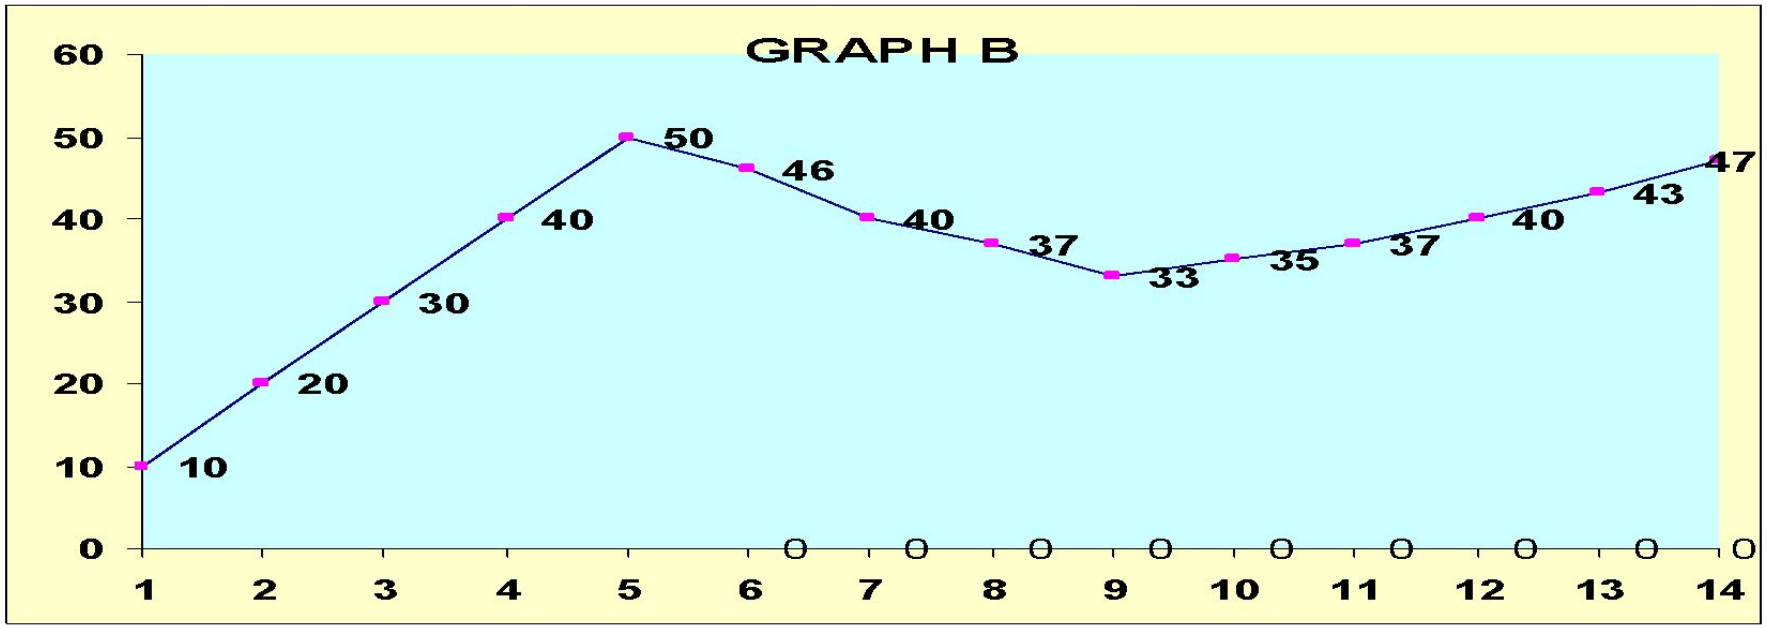

Timely Switching in & Switching out

- In this example, one can see that he has increased the number of units from 10,000 to 13,562 units by **switching in and switching out** at the right point of time.

- He has **not lost the gain he originally made** when he was keeping the money in the Growth Fund, by **timely switching .**

- Even if an investor does not use this switch over option, he will **stand to benefit in the long run**, as the NAVs are bound to improve when the market conditions improve.

Online Switching is Available.

NAV of Growth Fund is Rs.37/-.

Assuming the NAV of Bond Fund as Rs.21/- at the time of switch over, he will get units as given below:-

23,000 units x 21 = **4,83,000** (Fund Value)

4,83,000/ 37 = 13,054 units (under Growth Fund)

In this process, he has saved his money from the Market volatility and maintained the Gain already earned.

ULIP & MUTUAL FUND

Areas	ULIP	Mutual Funds
Benefits / Focus Points	Insurance, Returns & Tax Benefits	Returns only
Period of Investment	Long Term (minimum 5 years)	Predominantly Short Term
Life Insurance Cover	Available	Not Available
Lock in Period	5 Years	No lock in Period

ULIP & MUTUAL FUND

Areas	ULIP	Mutual Funds
Loyalty Additions	Available in the form of Guaranteed Additions at the end of specific years	No such benefit available
Switching Facility	Available to take advantage of market fluctuations. (Four free switches; No cap on Number of Switches in a year)	Available with restrictions; Every Switch is considered as a sale and Capital Gain Tax will apply; Exit loads also, wherever applicable

ULIP & MUTUAL FUND

Areas	ULIP	Mutual Funds
Tax Benefits on Investments	All plans with 10 times Risk cover are eligible for 80C exemption (upto Rs.2.5 lacs Premium per annum)	Mutual Funds other than those under ELSS (Equity Linked Savings Schemes) do not qualify for 80C exemption
Tax Benefits on Withdrawal / Maturity	Returns on Annual Premiums upto 2.5 lacs not taxable, if 10 Times cover is optioned. Beyond 2.5 lacs, Long Term Capital Gains Tax @ 12.5% will apply.	Both Short Term Capital Gain Tax (@20%) and Long Term Capital Gain Tax (@12.5%) apply, based on the duration of stay in the scheme

Taxation on MUTUAL FUNDs

Equity-Oriented Mutual Funds

- **Short-Term Capital Gains (STCG):** Taxed at **20%** if units are sold within 12 months.
- **Long-Term Capital Gains (LTCG):** Taxed at **12.5%** for profits exceeding ₹1.25 lakh in a financial year if units are held for more than 12 months. Gains up to ₹1.25 lakh are tax-free. Groww

Debt Mutual Funds

- **For investments made on or after April 1, 2023:** All profits are treated as short-term capital gains and added directly to your taxable income, taxed according to your **income tax slab rate** regardless of how long you hold them. Groww

Dividends (IDCW)

- Dividend payouts from mutual funds are added to your regular income and taxed according to your **income tax slab rate**. Fund houses deduct a 10% TDS if total dividend income crosses ₹10,000 in a financial year. Groww +1

Taxation on ULIPs

Taxation on Unit Linked Insurance Plans (ULIPs) in India depends on the annual premium amount, the date of policy issuance, and the type of payout. Regular policies with premiums up to ₹2.5 lakh enjoy tax-free maturity and Section 80C deductions, while high-premium ULIPs face capital gains tax. Tata AIA Life Insurance +1

Taxation on ULIPs

Tax Benefits on Entry and Payouts

- **Premiums (Section 80C):** You can claim deductions of up to ₹1.5 lakh per financial year. The annual premium must not exceed 10% of the absolute sum assured. Aviva India +1
- **Death Benefit (Section 10(10D)):** The payout received by the nominee upon the policyholder's death is 100% tax-free, regardless of the premium size. Tata AIA Life Insurance
- **Fund Switches:** Moving your money between different asset funds (equity to debt or vice versa) within the ULIP during the tenure is completely tax-free. DBS Bank

Maturity and Surrender Taxation

- **Low-Premium ULIPs (Aggregate premium ≤ ₹2.5 lakh or issued before Feb 1, 2021):** Maturity proceeds are fully tax-free under Section 10(10D), provided the annual premium stays within 10% of the sum assured. Aviva India +1
- **High-Premium ULIPs (Aggregate annual premium > ₹2.5 lakh issued on/after Feb 1, 2021):** Maturity or surrender proceeds lose the Section 10(10D) exemption and are taxed like equity-oriented mutual funds:
  - **Long-Term Capital Gains (LTCG):** Taxed at **12.5%** on gains exceeding ₹1.25 lakh for holdings past 12 months. HDFC Life Insurance +2

SENSEX Multi-Interval Rolling CAGR Table (1986–2026)

Entry Year (July 1st)	SENSEX Value	3-Year CAGR	5-Year CAGR	10-Year CAGR	15-Year CAGR	20-Year CAGR	25-Year CAGR

SENSEX Rolling CAGR Analysis (1986–2026)

0
Negative
10-Year+ CAGR

100%
Positive
15/20/25-Year CAGR

Long Term
Risk Falls
Over Time

Executive Summary

- Short-term returns can fluctuate, but long-term rolling returns have historically been remarkably consistent.
- No negative 10-, 15-, 20- or 25-year rolling CAGR was observed in the study period.
- Probability of earning more than 10–12% CAGR improves substantially with longer holding periods.
- The data reinforces a simple investment principle: Time in the market matters more than timing the market.

Ideal conclusion for investors: Stay invested. Stay disciplined. Let compounding work.

What Does This Mean for Investors?

Investment Horizon

3–5 Years: Returns can be volatile.
10 Years: Risk reduces significantly.
15–25 Years: Historically, every rolling period produced positive CAGR.
Lesson: Patience and compounding are powerful wealth creators.

Practical Advice

✓ Invest regularly
✓ Stay invested
✓ Avoid emotional decisions
✓ Review periodically
✓ Let compounding work over decades

An Analysis of Rolling CAGR of SENSEX (1986-2026)

Maturity Benefit :

- Policyholder's Unit Fund Value

Death Benefit:

Higher of :

- Basic Sum Assured less partial withdrawals if any, made during the last two years;

or

- Policyholder's Unit Fund Value

- **Basic Sum Assured (BSA) Options:**
  - Option 1 = 1.25 times of Single Premium
  - Option 2 = 10 times of Single Premium

Benefits of Nivesh Plus

Other Features:

- LIC's Linked Accidental Death Benefit Rider
- Switching of fund to protect the investment in case of market volatality (4 free switches in a Policy Year);
- No ceiling of Number of Switches in a Year
- Lock in Period: 5 Years.

  Complete / Partial Withdrawal Option after Five Years.
- Option to Nominee to receive Death benefits in Instalments
- Tax rebate under Sec. 80 C. & Tax free returns under Sec. 10(10)(D), if risk cover is 10 times the deposit.

Other Benefits of Nivesh Plus

Options :

- LIC's Linked Accidental Death Benefit Rider
- Switching of fund (4 free switches in a Policy Year)
- Complete / Partial Withdrawal Option after Five Years.
- Option to receive Death benefits in Instalments

Other Benefits :

- Tax rebate under Sec. 80 C. & Tax free returns under Sec. 10(10)(D), if risk cover is 10 times the deposit.

Underwriting Aspects

ASA = Sum Assured less Single Premium;

1.25 times Cover : 0.25 times of Single Premium

10 times Cover: 9 times of Single Premium

Nivesh Plus:
More Premium under Non Medical

Non Medical Insurance

under Nivesh Plus (1.25 times Cover Option)

NIVESH PLUS - NON MEDICAL LIMIT

SUM ASSURED = 1.25 TIMES OF SGL. PREM.

AGE	SGL.PREM.	S.A.	SUC
UPTO 35 YRS.	60 LACS	75 LACS	15 LACS
36 - 50	40 LACS	50 LACS	10 LACS
51 - 60	12 LACS	15 LACS	3 LACS

Non-Medical Scheme for Single Premium Plans

Applicable for:

717: Single Premium Endowment
849: Nivesh Plus under Option 1 (1.25 Times Cover option)
883: Jeevan Utsav - Single Premium
888: New Jeevan Saathi (1.25 Times cover)

AGE GROUP	ACTUAL SUM ASSURED (A S A) for each Plan
18 to 35	15 lacs
36 to 50	10 lacs
51 to 60	3 lacs

- **Very important: The Proposer should be a Standard life.**
- ASA = Basic Sum Assured or Death Sum Assured less Single Premium.
- For SUC under Single Premium Plans, policies taken during last two years are to be taken into account.

Applicability of Stand alone Non-Medical Scheme for Single Premium Plans

Those falling under:

- ✔ Preferred Non Medical Group (Resident Indians, NRIs and FNIOs of Group V) 18 to 50)
- ✔ Special Non Medical Group (Resident Indians and NRIs of Group V) (18 to 50)
- ✔ General Non Medical Group (Resident Indians) (18 to 50)
- ✔ Major Students (18 to 30)
- ✔ Those aged 51 to 60 Years
- ✔ Those aged 61 to 65 Years (with MER / Video MER)

Stand Alone Non Medical Limits, even beyond 60 Years

For the following Plans, stand alone limits are available for ages 61 to 65:

717: Single Premium Endowment
849: Nivesh Plus under Option 1 (1.25 Times Cover option)
883: Jeevan Utsav - Single Premium
888: New Jeevan Saathi (1.25 Times cover)

AGE GROUP	ACTUAL SUM ASSURED (A S A)	Medical Requirements
61 to 65	3 lacs	MER or Video MER (No Special Reports needed)

Meaning of Stand Alone Limits

- The Limits are available for all these 3 Plans options **individually;**
- One can avail the benefit under all these 3 Plans **simultaneously.** (Earlier the limit was the total ASA of all these plans put together).
- Now the scope of Business/Premium has increased in a big way.

Meaning of Stand Alone Limits

AGE GROUP	ACTUAL SUM ASSURED (A S A)	Premium under Plan 717	Premium under Plan 849	Premium under Plan 883	Premium under Plan 888
Under Non Medical:					
18 to 35	15 lacs	Based on Sum Assured & Premium	60 lacs	60 lacs	60 lacs
36 to 50	10 lacs	Based on Sum Assured & Premium	40 lacs	40 lacs	40 lacs
51 to 60	3 lacs	Based on Sum Assured & Premium	12 lacs	12 lacs	12 lacs
With MER or Video MER:					
61 to 65	3 lacs	Based on Sum Assured & Premium	12 lacs	12 lacs	12 lacs

Applicability of both Regular Premium & Stand alone Single Premium Non Medical Limits

For these Single Premium Plans/options, one can avail the Non Medical limits in both (for ages 18 to 50):

- ✔ Standalone Non Medical Scheme for Single Premium
  and
- ✔ Usual Non Medical Schemes such as Preferred/Special/General.

This further increases the scope of Insurance and Single Premium from the particular client.

Benefits of Monthly Mode in NACH

- Monthly Mode is Pocket-Friendly
- Leverage Brand Value of LIC
- Habit to save regularly
- Manage Market Volatility by Rate Averaging
- Automatic Deduction
- Arrest Lapsation

Settlement Options on Death

The Policyholder can opt for the payment of the Death Claim amount to nominee, in instalments, instead of lump sum.

The instalment period should not be more than 5 Years

The instalments can be in Monthly/Quarterly/Half Yearly/Yearly

What is NIFTY 50 & NIFTY 100?

The Nifty 50 was officially launched on April 22, 1996, with a base date retroactively set to November 3, 1995. The Nifty 100 was launched later, in December 2005, with a base date retroactively set to January 1, 2003. Nippon India Mutual Fund +1

Both indices were created by the **National Stock Exchange (NSE)** in **India**: NSE India +2

- **Nifty 50:** The concept was coined in April 1996 (originally called S&P CNX Nifty) to measure the performance of the top 50 highly liquid, large-cap Indian stocks. Investopedia +3
- **Nifty 100:** Launched in December 2005, this index consists of the top 100 companies based on full market capitalization from the Nifty 500, intending to act as a comprehensive gauge for the overall large-cap segment. NIFTY Indices +1

About the Nifty 50 index

The NIFTY 50 is a diversified 50 stock index that represent key sectors of the economy. This index tracks the performance of the 50 large bluechip companies traded in the NSE based on free-float market capitalisation. These stocks are also the most liquid securities and together account for over two-thirds of the free-float market cap of traded securities in Indian exchanges.

The Nifty 50 is a market cap-based index, like many of the top global indices. What this means is that only the top stocks in terms of market cap remain in the index. Those that fall below the 50 get eliminated from the index and those that move up get added to the index. The weight given to each stock is based on the free-float market cap size it commands.

As a bellwether index, the Nifty 50 is used as a benchmark for local and global managed portfolios, index-based derivatives and has passive products such as ETFs and index funds that track it.

NIFTY 50 is computed in four currencies namely Indian Rupee (INR), US Dollar (USD), Australian Dollar (AUD) and Canadian Dollar (CAD).

The NSE also has futures contracts and options based on the Nifty 50. Besides, there are also derivative instruments linked to Nifty 50 that are traded at the Singapore Exchange (SGX), which is also a closely watched indicator in Indian markets.

Frequency of review of Nifty 50 index

Like all other Nifty-based indices, the Nifty 50 is reconstituted semi-annually in March and September. According to material available on the NSE on the Nifty 50

What is NIFTY 100?

Here is a structural breakdown of how these three indices differ:

Index Composition

- **NIFTY 50:** Tracks the **top 50** largest and most liquid companies listed on the National Stock Exchange (NSE).
- **NIFTY NEXT 50:** Tracks the **next 50** largest companies listed after the NIFTY 50 (ranked 51 to 100 by market cap).
- **NIFTY 100:** Combines both to track the entire **top 100** largest listed companies.

Risk and Growth Potential

- **NIFTY 50:** Contains established giants. It offers **lower risk** and highly stable, mature growth.
- **NIFTY NEXT 50:** Contains "next-generation" leaders. It is **higher risk** but offers higher growth potential. These companies are potential candidates to move into the NIFTY 50 in the future.
- **NIFTY 100:** Offers a **balanced risk** profile by blending the stability of blue-chip stocks with the growth potential of mid-to-large-cap performers.

Top Up Premium

- Policyholder can Pay Top Up Premium during the Policy Term.
- Each Top Up Premium will be treated as a single Premium Investment and the Insurance Cover would be 125% of the Top up Premium

Maturity Benefits under Protection Plus

Maturity Benefit:

- Unit Fund Value

  (Both Base Premium Fund Value & Top Up Premium Fund Value, if any)

Refund of Total Mortality Charges

Death Benefits under Protection Plus

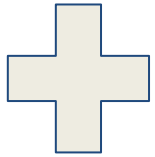

On the Base Premium

Highest of:

Basic Sum Assured
Reduced by Partial Withdrawals, if any, in last 2 Years; or

Base Premium Fund Value; or

105% of the Total Base Premium Paid upto the Date of Death

On the Top Up Premium, if any

Highest of:

Total Top up Sum Assured; or

Total Top Up Premium Fund Value; or

105% of the Total Top Up Premium Paid upto the Date of Death

Other Benefits under Protection Plus

- LIC's Linked Accidental Death Benefit Rider
- Switching of fund (4 free switches in a Policy Year)
- Complete / Partial Withdrawal Option after 5 Years.
- Settlement Option: To receive Death Benefits in instalments.
- Top Up Premium
- Increase in Basic Sum Assured
- Decrease in Basic Sum Assured
- Discontinued Fund

- Tax rebate under Sec. 80C & Tax free returns under Sec. 10(10)(D), if risk cover is 10 times the Premium. (subject to other conditions)

Settlement Option

- The policyholder can exercise his Option to receiving (by nominee) Death Proceeds in instalments.
- The proceeds are payable to Nominee in a period spread over 5 Years.
- The Policyholder has to specify the mode of instalment (Yearly or Half Yearly or Quarterly or Monthly).
- The Number of Units on the date of Intimation of Death will be divided by 5/10/20/60, based on the mode chosen by the Policyholder and such number of units would be redeemed periodically and paid to the nominee.
- Nominee cannot change the option exercised by the Policyholder

Partial Withdrawal

- Available after 5 Years.
- The withdrawals can be in the form of number of units or fixed amount.
- Whenever Partial Withdrawal is made, the withdrawal will be first from the Top Up Premium Funds (where 5 Years are over from the dates of Top up) and thereafter from the Base Premium Fund. (There is a limit for Partial Withdrawal, based on the duration of the Policy).
- In respect of Top Up Premiums, the Partial Withdrawal is allowed, within the Difference between the Top Up Premium Fund Value and the Top Up Sum Assured. (in respect of Top Ups which exceeded 5 Years)

Partial Withdrawal

- In case of Death, the **Basic Sum Assured will be reduced by the partial withdrawals made, within the last 2 years.**
- **After 2 Years, again the original Basic Sum Assured will be restored.**
- Mortality charges also will be levied accordingly, taking into account the above aspect.
- This is not a loan. Hence no question of repayment of the amount or payment of Interest arises.

Top Up Premiums

- Top Up Premium can be paid at anytime, except during the last 5 Years.
- Top up Premium shall be accepted when the policy is in discontinuance.
- Top Up Premiums shall be treated as Single Premium for the purpose of Insurance Cover
- The Insurance cover is 1.25 Times of the Top Up Premiums.
- Necessary Underwriting rules apply, while accepting the Top Up Premiums.
- Minimum Top Up Premium is Rs.1000 and thereafter in multiples of Rs.1000
- Top Up Premium cannot be withdrawn form the Top Up fund within 5 Years.

Increase in Sum Assured

- The Policyholder can opt for increase in Basic Sum Assured for key life stage events such as Marriage of self, birth/legal adoption of child or any other event allowed by the Corporation.
- Maximum Age of the Life Assured at the time of exercise of the option should not exceed 45 Years, nearer birth day.
- The Maximum Basic Sum Assured, further to exercise of this option should not exceed the maximum limits applicable for the Age at the time of exercising the option.

Increase in Sum Assured

- The increase is subject to underwriting conditions applicable.
- The cost of Medical and Special reports, if any is to be borne by the Life Assured.
- On increasing the Sum Assured, the mortality charges will accordingly be increased from the next month.
- Once increased, no reduction in Sum Assured will be permitted.

Decrease in Sum Assured

- Reduction in Basic Sum assured is permitted within the applicable limits of the Plan.
- Once reduced, the mortality charges will be applicable from the next month.
- Once Basic Sum Assured is reduced, it cannot be increased again.

Concept of Discontinued Policy Fund

If the policy is discontinued within 5 years from DOC:

When the premiums are not paid within grace period, the amount in the Policy account is transferred to Discontinued Fund, after deducting Discontinuance charges.

Discontinuance Charges will be on Base Premium Fund only (Not on Top Up Fund)

The Risk Cover & Rider Covers will stop.

Concept of Discontinued Policy Fund

Communication will be sent to customer asking him to revive the policy, after transferring the amounts to Discontinued fund.

If the policyholder revives the policy, the amount would be transferred back to original Fund account, along with the Discontinuance charges recovered earlier.

If the Policyholder does not revive the policy, within 3 Years from the Date of Lapse, the amount in the Discontinued Fund will be settled to the Policyholder, at the end of 5 years lock in period or 3 Year Revival period, whichever is later.

Revival

- Grace Period is 30 days for modes Yly, Hly or Qly;
  For Monthly mode, 15 days' grace period.
- A lapsed Policy can be revived within 3 years of First Unpaid Premium
- During Revival, no interest is collected. But health requirements would be there.
- If the Policy fund had been already taken to Discontinued Policy Fund, upon revival, the amount would be brought back to the Unit Fund; The discontinuance charges already recovered will be credited to the Policyholders' account on revival.
- All outstanding applicable Policy Administration charges, if any, from the date of discontinuance will be recovered from the Policy Fund.
